

Report of Lectureship Tour in Japan, Feb. 20-27, 2016 by Jin Kyoon Park

Department of Chemistry, Pusan National University

Feb. 20 Arrived at Chitose airport and met Prof. Ohmiya

21 Personal interaction with Prof. Sawamura
(Nikka Whisky, hot spring, Jinghis Khan, etc)

22 Chemistry discussion with Prof. Matsunaga and Prof. Ito
(poster presentations by 2 Ph.D students of Prof. Ito group)

Lunch with 5 master and Ph.D students of Prof. Sawamura group

Chemistry discussion with Prof. Ohmiya and Ph. D student

Lecture, "*Synthesis and Application of Fused N-Heterocycles in Pd and Cu Catalysis*"

Host: Prof. Sawamura

23 Arrived at Sendai airport, met Prof. Iwabuchi

Lecture, "*Synthesis and Application of Fused N-Heterocycles in Pd and Cu Catalysis*"

Host: Prof. Iwabuchi

24 Chemistry discussion with Prof. Kanoh, Prof. Doi, Prof. Tsukamoto, Prof. Tokuyama,
Prof. Ueda, Prof. Sasano, Prof. Terada, Prof. Hayashi and Prof. Iwabuchi

25 Arrived at Ikebukuro

26 Lecture, "*Synthesis and Application of Fused N-Heterocycles in Pd and Cu Catalysis*"

Host: Prof. Hou

Chemistry discussion with Dr. Takida, Dr. Sohtome, Dr. Kamiguchi, Dr. Shima, Dr. Yamada, Dr. Tanaka, and Dr. Hou

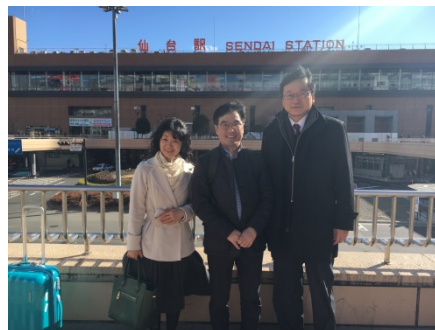

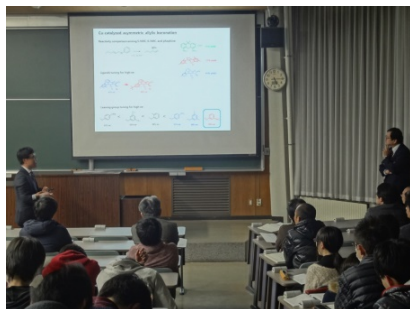

27 Left to Kimhae, Busan

At Hokkaido hot spring (雪株父)

With Prof. Sawamura and Prof. Ohmiya

With Prof. Iwabuchi and his wife (Ms. Sakiko)

With Prof. Tokuyama, Prof. Doi, Prof. Iwabuchi, and Prof. Suzuki

I enjoyed very much the ACP seminar tour. First of all, I would like to give my sincere thanks to Prof. Sawamura, Prof. Iwabuchi, and Prof. Hou for the warm hospitality. I had an excellent chance to experience **Hokkaido Nature, Sendai cuisine, and Ikebukuro street** as well. Regarding chemistry things, I have met more than 20 chemists and discussed their achievements. My touching experience in Japan will be delivered to my friends in Korea.
