

Report of the Lectureship Tour in Taiwan, 12th–15th Feb., 2017

Dr. Soji Shimizu

Department of Chemistry and Biochemistry, Kyushu University

e-mail: ssoji@cstf.kyushu-u.ac.jp

Schedule

12th Feb. (Sun): Arrival in Taipei

13th Feb. (Mon): Visit and lecture at National Taiwan Normal University and discussion with Profs. Cheng-Huang Lin, Hsyueh-Liang Wu, and Tun-Cheng Chein

Host: Hsyueh-Liang Wu

Lecture title: Synthesis of Novel aza-BODIPY Analogues from Lactams and Their Intriguing Optical and Electrochemical Properties

14th Feb. (Tue): Visit and lecture at Academia Sinica and discussion with Profs. Chen-Hsiun Hung, Chin-Ti Chen, Jiann T' suen Lin, Tiow-Gan Ong, and Shih-Sheng Sun

Host: Tiow-Gan Ong

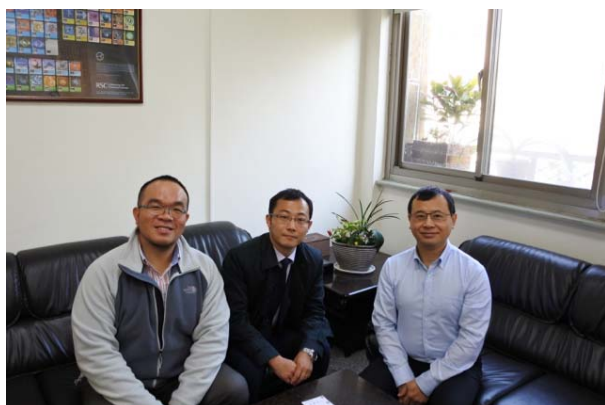

Lecture title: Fabrication of Stimuli-Responsive Molecular Wires Based on TTF-Annulated Phthalocyanine and its Analogue

15th Feb. (Wed): Visit and lecture at National Tsin Hua University and discussion with Profs. Chien-Tien Chen, Tan Kui Thong, and Yun Chi

Host: Chien-Tien Chen

Lecture title: Synthesis of Novel aza-BODIPY Analogues from Lactams and Their Intriguing Optical and Electrochemical Properties
